

Gränsfors Outdoor Axe

The Gränsfors Outdoor Axe was developed with the help of survival expert Lars Fält, and is ideal for those who want to use an axe in different ways when out and about in the countryside. Although it is light, it can be used to fell a tree, thanks to its relatively long handle and heavy, elongated head. The axe is also excellent for limbing a tree. The handle has a protective steel collar near the head so that the axe can be used for light wood splitting tasks. It can also be used as a large knife.

Item no: 425

Length with handle: 37 cm (14.5")

Weight: 0,5 kg (1 lb)

Sheath in vegetable-tanned leather

Extra sheath item no: 425-408

Extra handle item no: 425-406
